Partial Differential Equations Seminar

Title Mathematical Analysis of Active models

Speaker 배한택 교수

Affiliation 울산과학기술원 수학과

Date Feb. 8th , 14:00 ～ 15:00

Location 과학관 225

Abstract

 Active matter includes living and nonliving systems with emergent dynamic properties over a wide range of length and time scales. In this talk. I will introduce several models of active matter and will provide some mathematical results.
