

Yonsei Math Colloquium 2018

Science Hall 225

Thursday 17:00

3.08	이경석 IBS Center for Geometry and Physics	Derived categories and their applications
3.22	A. Sankaranarayanan Tata Institute of Fundamental Research	Riemann zeta-function and some conjectures
4.12	전보광 POSTECH	The geometry and topology of 3-manifolds
5.17	양민석 연세대학교	Continuity and Dimension
5.24	최선호 경희대학교	On a derivation of the polyatomic Vlasov equation with vibratory and rotational motions
5.31	유명준 U of Michigan	Elliptic curves and Selmer companion curves
6.12 (Tue)	장주희 U of Southern California	Existence of slowly rotating stars

Tea Time 16:40
